

PALLET LITE PALLETISING MADE EASY

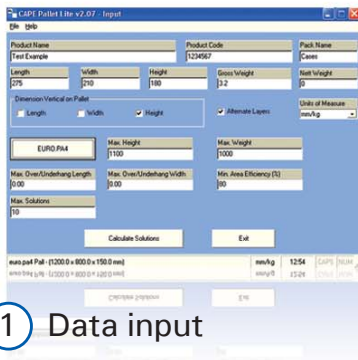

ONLY
R3500

Easy to use palletising software designed to save you money and reduce your carbon footprint.

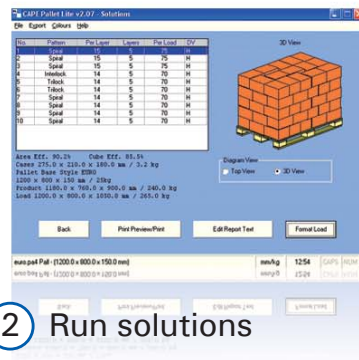

Need to find a quick and easy way of reducing costs within your company?

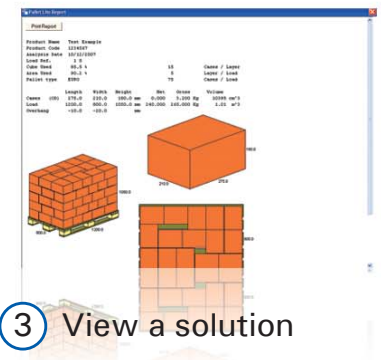

Use the **PALLET LITE** program to work out how to get more product onto a pallet so you don't ship empty space. Reducing the amount of fuel and materials you use means you will make significant cost savings and reduce your carbon footprint.

1 Data input

2 Run solutions

3 View a solution

Enter your case dimensions, select a pallet type then input the maximum height and weight of the pallet. **PALLET LITE** will generate a range of palletising reports. Print or email your chosen report or interface the results with another program application.

Try **PALLET LITE** for yourself by downloading the free demo at www.capesystems.co.uk

PALLET LITE is designed for installation to a Single PC only and is supplied with a user guide. Available in English, French, Spanish, German, Polish, Swedish, Italian and Japanese.

START SAVING MONEY NOW - ORDER YOUR COPY OF PALLET LITE!
